paint brush  
(to spread the glue)

## In this crate...

Kiddush Cup

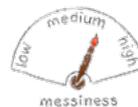

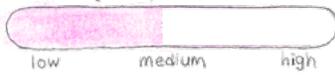

Plate

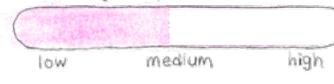

messiness

grownup involvement

messiness

grownup involvement

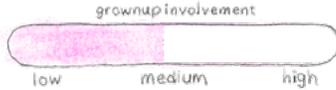

We celebrate Shabbat as a tribute to the fact that Hashem created the world and is still actively involved and concerned with the world He created. That's why in Kiddush we mention that He created the universe and that He took us out of Egypt. The Exodus was the first time in history that we clearly saw Hashem still watching out for us. We testify to this every week during Kiddush to reflect how He still 'has our back.' Scan the code or visit [joidenver.com/shabbat](http://joidenver.com/shabbat) to hear an audio version of kiddush.

TUTORIAL

Scan this code

## STEP 1

Pour sand into stem layering different colors on top of each other. Pour slowly. You need much less sand than you think!

## STEP 2

Continue layering until sand reaches the top. Try attaching the top of the cup. If there's too much sand remove excess.

## STEP 3

Attach gems.

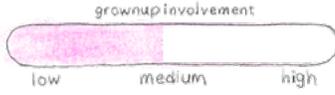

## STEP 4

This optional step is for adults only. Apply super glue along the edge of the top and snap onto the base of the cup. You can also glue the gems if you'd like.

TUTORIAL

Scan this code

## You will need:

## STEP 1

Flip over plastic plate. Pour clear glue over the inner circle. Spread evenly.

## STEP 2

Place letters backwards with shiny side facing down.

## STEP 3

Pour sand over glue and letters. Wait for the glue to dry. Once dry shake off excess sand.

## STEP 4

This optional step is for adults only. Apply super glue along the rim of the bottom plate and place on top of the top plate. Alternately, you can just place the bottom plate under the sand without attaching.
